Narrative	ESCALATED COMPLAINT: Customer alleges a systematic pattern of denials targeting minority neighborhoods. The complainant states: 'I have spoken with at least six of my neighbors, all of whom are African American or Hispanic, and every one of them has been denied a mortgage by First National Bank in the past two years. Meanwhile, applicants from [non-minority tract] are being approved with similar or worse financial profiles. This is not a coincidence — it is a systematic pattern of denials targeting minority neighborhoods.' The customer has filed a parallel complaint with the OCC and is requesting a formal regulatory investigation. This complaint requires committee-level review.
